

16 career clusters with job examples

16 career clusters with job examples provide a comprehensive framework to understand the diverse professional opportunities available across various industries. These clusters categorize related occupations, helping individuals explore career paths aligned with their interests and skills. Understanding the 16 career clusters with job examples is essential for career planning, workforce development, and educational guidance. This article outlines each cluster, describing its scope and highlighting specific job examples that represent typical roles within the field. From Agriculture to Transportation, each cluster encompasses a wide range of professions, offering insight into the job market and potential career trajectories. The following content will explore these clusters in detail, offering a valuable resource for students, educators, and professionals alike.

- Agriculture, Food & Natural Resources
- Architecture & Construction
- Arts, A/V Technology & Communications
- Business Management & Administration
- Education & Training
- Finance
- Government & Public Administration
- Health Science
- Hospitality & Tourism
- Human Services
- Information Technology
- Law, Public Safety, Corrections & Security
- Manufacturing
- Marketing
- Science, Technology, Engineering & Mathematics (STEM)
- Transportation, Distribution & Logistics

Agriculture, Food & Natural Resources

The Agriculture, Food & Natural Resources cluster focuses on careers related to farming, food production, natural resource management, and environmental conservation. This sector plays a critical role in sustaining the food supply chain and managing natural ecosystems responsibly.

Job Examples in Agriculture, Food & Natural Resources

Typical occupations include a variety of roles that emphasize hands-on work with plants, animals, and natural resources.

- Agricultural Scientist
- Farm Manager
- Food Scientist
- Forester
- Environmental Technician
- Animal Caretaker

Architecture & Construction

The Architecture & Construction cluster encompasses careers involved in designing, planning, managing, building, and maintaining physical structures and infrastructure. This cluster requires both creative design skills and practical construction knowledge.

Job Examples in Architecture & Construction

Professionals in this cluster contribute to creating residential, commercial, and industrial buildings as well as infrastructure projects.

- Architect
- Construction Manager
- Civil Engineer
- Electrician
- Carpenter

- Surveyor

Arts, A/V Technology & Communications

This cluster includes careers in designing, producing, exhibiting, performing, writing, and publishing multimedia content. It covers the creative and technical aspects of visual and audio communication.

Job Examples in Arts, A/V Technology & Communications

Careers in this field often involve collaboration between artists, technologists, and communicators to produce engaging content.

- Graphic Designer
- Video Producer
- Journalist
- Photographer
- Sound Engineer
- Animator

Business Management & Administration

The Business Management & Administration cluster covers the planning, organizing, directing, and evaluating of business functions. This sector is essential for effective organizational operations and leadership.

Job Examples in Business Management & Administration

Roles within this cluster focus on strategy, human resources, office management, and financial oversight.

- Business Analyst
- Human Resources Manager

- Office Administrator
- Project Manager
- Executive Assistant
- Operations Manager

Education & Training

Education & Training careers involve instructing, guiding, and supporting learners of all ages in a variety of educational settings. This cluster is fundamental to workforce development and lifelong learning.

Job Examples in Education & Training

These professions prepare individuals to share knowledge and foster skill development.

- Teacher
- School Counselor
- Instructional Coordinator
- Corporate Trainer
- Special Education Teacher
- Education Administrator

Finance

The Finance cluster encompasses careers related to banking, investment, insurance, and financial planning. Professionals in this sector help individuals and organizations manage money effectively.

Job Examples in Finance

These roles require analytical skills and knowledge of financial markets and regulations.

- Financial Analyst

- Accountant
- Loan Officer
- Insurance Underwriter
- Investment Banker
- Financial Planner

Government & Public Administration

This cluster includes careers that involve governance, public policy, administration, and public service at local, state, and federal levels. It supports the infrastructure of government operations.

Job Examples in Government & Public Administration

Professionals in this sector work toward effective and efficient public management and services.

- Urban Planner
- Policy Analyst
- Government Administrator
- Diplomat
- Public Affairs Specialist
- Legislative Assistant

Health Science

The Health Science cluster focuses on careers related to the promotion of health, the prevention and treatment of illnesses, and the improvement of overall well-being. This sector is vital to public health and medical services.

Job Examples in Health Science

These occupations require specialized knowledge of medical science and patient care.

- Registered Nurse
- Physician
- Pharmacist
- Medical Laboratory Technician
- Physical Therapist
- Health Administrator

Hospitality & Tourism

The Hospitality & Tourism cluster involves careers in lodging, food services, travel, and recreation. This sector focuses on providing exceptional customer experiences and managing tourism-related enterprises.

Job Examples in Hospitality & Tourism

Roles include service-oriented positions that enhance guest satisfaction and operational efficiency.

- Hotel Manager
- Chef
- Travel Agent
- Event Planner
- Tour Guide
- Restaurant Manager

Human Services

Human Services careers are centered around helping individuals and communities improve their quality of life. This cluster includes social work, counseling, and personal care services.

Job Examples in Human Services

Positions often involve direct interaction with clients to provide support and resources.

- Social Worker
- Counselor
- Childcare Worker
- Substance Abuse Counselor
- Community Service Manager
- Rehabilitation Specialist

Information Technology

The Information Technology cluster covers careers related to computer systems design, software development, network administration, and cybersecurity. This sector is critical to the digital infrastructure of businesses and organizations.

Job Examples in Information Technology

IT professionals design, implement, and maintain technology solutions to meet organizational needs.

- Software Developer
- Network Administrator
- Cybersecurity Analyst
- Database Administrator
- IT Support Specialist
- Web Developer

Law, Public Safety, Corrections & Security

This cluster includes careers aimed at protecting people and property, enforcing laws, and maintaining public order. It encompasses law enforcement, legal services, emergency

response, and correctional services.

Job Examples in Law, Public Safety, Corrections & Security

Professionals in this field work to ensure safety and justice in communities.

- Police Officer
- Firefighter
- Paralegal
- Correctional Officer
- Emergency Medical Technician (EMT)
- Security Manager

Manufacturing

The Manufacturing cluster involves careers related to the production of goods using labor, machines, tools, and chemical or biological processing. This sector is integral to the economy and supply chains.

Job Examples in Manufacturing

Positions range from hands-on production roles to engineering and quality control.

- Production Supervisor
- Industrial Engineer
- Machine Operator
- Quality Control Inspector
- Maintenance Technician
- Assembler

Marketing

Marketing careers focus on promoting products and services to customers through advertising, market research, sales, and public relations. This cluster supports business growth by connecting companies with target markets.

Job Examples in Marketing

These roles require creativity, communication skills, and strategic thinking.

- Marketing Manager
- Market Research Analyst
- Advertising Specialist
- Sales Representative
- Public Relations Coordinator
- Content Marketer

Science, Technology, Engineering & Mathematics (STEM)

The STEM cluster covers careers in scientific research, technological innovation, engineering design, and mathematical analysis. This sector drives advancements that impact every aspect of modern life.

Job Examples in STEM

STEM professionals apply analytical and technical expertise to solve complex problems.

- Mechanical Engineer
- Biologist
- Data Scientist
- Software Engineer
- Mathematician
- Chemist

Transportation, Distribution & Logistics

This cluster includes careers involved in the movement of people, products, and goods. It encompasses transportation operations, warehouse management, and supply chain logistics.

Job Examples in Transportation, Distribution & Logistics

Roles in this sector ensure efficient and safe delivery of goods and services worldwide.

- Truck Driver
- Logistics Coordinator
- Warehouse Manager
- Air Traffic Controller
- Supply Chain Analyst
- Delivery Driver
