Grants and Scholarships

Subsidized loans are need-based, with the government paying interest while the student is in school. Unsubsidized loans accrue interest during all periods. PLUS loans are available to parents or graduate students and generally have higher interest rates.

Repayment Plans

Standard repayment requires fixed payments over ten years, while Income-Driven Repayment (IDR) plans adjust payments based on income and family size, often extending the repayment period. Everfi module 6 financing higher education highlights the importance of choosing a repayment plan that aligns with the borrower's financial capacity to avoid default and manage debt effectively.

Loan Forgiveness Programs
