other critical regulations. The test also evaluates understanding of defensive driving techniques and the consequences of unsafe driving behaviors.

Format and Structure

The format of the theoretical exam varies by location but generally consists of a set number of questions, usually ranging from 20 to 50. These questions are designed to assess knowledge in different categories such as traffic signals, rules of the road, and safe driving practices. Candidates must achieve a minimum passing score to proceed to the practical driving test stage.

Key Topics Covered in the Theoretical Exam

Recognizing and interpreting these signs correctly ensures proper compliance with traffic laws.

Rules of the Road
