Through figurative language, *Night* conveys the horror and despair of the Holocaust while simultaneously highlighting moments of resilience and humanity.

Common Types of Figurative Language in Night

Among the most prevalent forms of figurative language in *Night* are:

- **Metaphors:** Direct comparisons that imply one thing is another to create strong associations.

- **Symbolism:** Use of objects, characters, or events to represent broader concepts or themes.
- **Imagery:** Descriptive language appealing to the senses to create vivid mental pictures.

Metaphors and Similes in Night

Metaphors and similes are among the most striking examples of figurative language in the book *Night*, providing readers with concrete images to understand abstract emotions and complex experiences. These comparisons often convey the intensity of suffering, loss of faith, and the cruel realities of the concentration camps.

Examples of Metaphors

Wiesel’s use of metaphors often centers on darkness and light, death and life, and silence and sound, emphasizing the contrasts experienced during the Holocaust. For instance, the recurring metaphor of “night” itself symbolizes not only the literal darkness but also spiritual darkness, despair, and the loss of innocence.

Examples of Similes

Similes in *Night* often illustrate the brutal conditions and emotional states by likening them to familiar experiences. One notable simile describes the prisoners as “like cattle” being herded into the camps, evoking the dehumanization and helplessness endured by the victims. Such comparisons make the horrors more tangible for readers and intensify the emotional impact of the narrative.

Symbolism and Imagery

Symbolism and imagery work hand in hand in *Night* to deepen the memoir’s thematic expressions through figurative language. Wiesel’s vivid descriptions engage the senses and imbue objects and events with multiple layers of meaning.

- **Silence:** Reflects the world's indifference and the internal struggle of the victims.
- **The Soup:** Represents both sustenance and the stark reality of survival.

Use of Imagery

Imagery in *Night* appeals to readers' senses to create a haunting atmosphere. Descriptions of the cold, the barracks' filth, and the gas chambers' horrors evoke visceral reactions.
