speech thoroughly, emphasizing their definitions, uses, and examples in context.

Nouns

Nouns are words that name people, places, things, or ideas. They act as the subject or object within a sentence and are vital for conveying clear meaning. Flocabulary songs illustrate different types of nouns, including common, proper, abstract, and collective nouns, to help learners identify and use them correctly.

Verbs

Verbs express actions, states, or occurrences. They are the backbone of predicates and dictate the tense and mood of sentences. Flocabulary introduces regular and irregular verbs, helping students recognize verb forms and their appropriate usage.

Adjectives

Adjectives describe or modify nouns and pronouns, providing details about qualities, quantities, or characteristics. The Flocabulary approach includes examples of comparative and superlative adjectives, aiding learners in enhancing their descriptive writing.

Adverbs
